CHATBOT WITH CUSTOMIZABLE VOICE

Madhumitha N

1.Preeti C P

2.Mohamed Afsal S

3.Poovarasan K

4.Kevinkerubakar M

MENTOR: Majidha Fathima K M

OVERALL PLAN

- Our topic is '**Chatbot with customizable Voice** using **Rasa** open source software'. We actually train a model by modifying some **domains and NLU** yml files.

- With **Anaconda software** we have installed Rasa

- We planning to record our **team mates voices** to train the **voice synthesizer**

- We have successfully trained the way the model should **greet** the user

- Further we have collected bunch of **frequently asked questions about COVID** by the common people

QUESTIONS

- what is covid?

- which SARS is responsible for coronavirus disease?

- origin of coronavirus disease?

- covid-19 stands for?
